REQUEST FOR RECONSIDERATION

The Hon. Commissioner of Patents
and Trademarks
Washington, DC 20231-5601

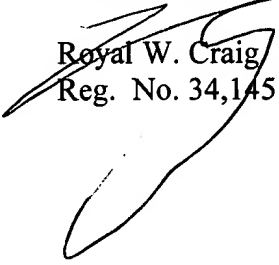

Sir:

In response to the final Office Action dated 14 December 2006 in the above-identified case, reconsideration is requested of the Examiner's decision to make the Official Action final. In the first official action the Examiner objected to the Abstract for a misspelling, and rejected the pending claims under 35 U.S.C. 102(b) as being anticipated by Kraftson, et al. (U.S. Patent No. 6,151,581). Kraftson et al. '581 shows a computer system for acquiring, managing, analyzing, and summarizing patient clinical care information for physicians. In response Applicant corrected the Abstract and amended the claims very slightly to specify that the present system is not physician/patient system but "provides quantitative accountability for social services provided by a case worker to a client".

In this final Official Action the Examiner "maintained" his objection to the Abstract but for a new reason (excessive word count), and now rejects the pending claims under 35 U.S.C. 102(e) and (a) as being anticipated by a newly-cited reference, namely Douglas et al (U.S. Patent 6,039,688). Douglas '688 suggests a system by which physicians can well-manage patients, just as Kraftson. Clearly, Applicant's attempt to stress "social services provided by a case worker to a client" had no impact and did not prompt this new rejection. Douglas et al is an entirely new reference, and entirely new grounds for rejection of all pending claims and applicant should be entitled to a full and fair opportunity to address the new ground for rejection. An Official Action should not be made final if it includes a new ground of rejection not necessitated by Amendment of the applicant. MPEP 706.07(a). The Examiner has not articulated how Applicant's Amendment could have necessitated the new rejections, and Applicant contends that the record reflects that it did not. Consequently, the Examiner's issuance of a final Official Action is thought to be premature, and the Applicant respectfully requests that the finality of the rejection be withdrawn.
